PROFESSIONAL SUMMARY

Motivated BCA student and full-stack web developer with hands-on internship experience building MERN stack applications end-to-end. Proficient in React.js, Node.js, Express.js, and MongoDB, with additional experience in Python and Flutter. Proven ability to deliver functional, user-focused platforms and eager to contribute technical skills to an entry-level web development role.

EXPERIENCE

MERN Stack Developer Intern — Bridgeon Solutions

2026

- Built and deployed responsive full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Developed backend REST APIs and integrated them with dynamic, data-driven front-end interfaces.
- Collaborated with the development team to design database schemas and implement full-stack features from concept through delivery.

Full Stack Developer Intern — ICT Academy of Kerala

May 2025

- Completed an intensive MERN stack development internship, building full-stack web applications from the ground up.
- Designed and implemented responsive front-end components in React.js alongside backend APIs in Node.js and Express.js.
- Integrated MongoDB databases to support dynamic application features, strengthening skills in database design and API integration.

PROJECTS

CampusWork — Student Internship & Part-Time Job Platform | Flutter, Python, MySQL

- Designed and developed a mobile platform connecting students with internship and part-time job opportunities.
- Built employer-facing tools for posting opportunities and student-facing tools for browsing and applying.
- Created a simple, student-focused interface to streamline the job search and application process.

3D Animated Personal Portfolio | HTML5, CSS, JavaScript

- Built a responsive personal portfolio website featuring interactive 3D animations using HTML5, CSS, and JavaScript.
- Structured content into clear sections — profile, skills, projects, and contact — to deliver a modern user experience.

EDUCATION
